

Who needs passwords? I don't. My credential is trusted.

PIVotal ID *Fully compliant credentials via Secure Cloud, On-Site, or Walk-in Services*

ORC's PIVotal ID™ meets government-wide requirements for issuance of HSPD-12 Personal Identification Verification (PIV) and PIV-I credentials that address regulatory requirements and are built to scale globally.

ORC is a leading provider of trusted credentials for strong electronic authentication. ORC has issued and manages millions of compliant credentials enabling secure transactions for US Federal Agencies (Civilian and Defense), their employees, the global contracting community, trading partners, Veterans, and citizens who need to conduct business with any facet of the US Government.

PIVotal ID™ includes:

- Personal Identification Verification (PIV)
- Non-Federal Issuer PIV-Interoperable (NFI PIV-I)
- External Certificate Authority (ECA)
- Access Certificates for Electronic Services (ACES)
- TWIC Certificate Manufacturing Authority
- PIVotal ID™ Commercial
- PIVotal ID™ Validation

The trust behind your digital identity

PIVotal ID

We are proud to announce that as of March 2012, ORC has been certified as a Non-Federal Issuer (NFI) for PIV-Interoperable (PIV-I) credentials. This certification expands our credential portfolio to cover the full spectrum of user communities across the Civilian, Federal and DoD domains. ORC is a certified provider of Federal PIV credentials, PIV-I credentials, GSA ACES credentials, U. S. Government ECA credentials and the Transportation Worker Identity Credential (TWIC).

For medium to large organizations, ORC PIVotal ID™ for Business (PIV-I) offers three solutions:

➤ **Fully Managed PIV-I**

ORC performs all functions to provide your employees or clients their PIV-I credential. This includes performing registrar and issuer roles, hosting the Card Management System and the Certificate Authorities.

➤ **Backend Managed PIV-I**

ORC will train your personnel to perform the registrar and issuer roles. ORC will host the Card Management System and the Certificate Authorities.

➤ **Certificate Manufacturing Authority PIV-I**

If your organization already has a Card Management System, ORC will provide hosted Certificate Manufacturing Authorities for your system. This will provide you with the PIV-I cross certification that is required for government wide use.
